Malang, East Java, Indonesia

Informatics Engineering student at Universitas Negeri Malang with a strong passion for web development. To sharpen my skills and gain hands-on experience, I also work as a freelance web developer, building custom web-based applications tailored to client needs. I primarily work with NextJs, Laravel, and ExpressJs. I'm always eager to learn, grow, and stay updated with the latest advancements in the tech world. I'm excited to collaborate, connect, and explore new opportunities where I can continue to grow while contributing to impactful projects.

Experiences

Fullstack Web Developer January 2025 – Present

Self Employed | *Malang*

- Accomplish 6 projects using NextJs and Laravel based on client's requirements.
