My name is Ahmad Ammar Musyaffa, an Informatics Engineering student at the State University of Malang with a strong passion for web development. To sharpen my skills and gain hands-on experience, I also work as a freelance web developer, building custom web-based applications tailored to client needs. I primarily work with Laravel, Express.js, Go, Next.js, and Docker. I'm always eager to learn, grow, and stay updated with the latest advancements in the tech world. I'm excited to collaborate, connect, and explore new opportunities where I can continue to grow while contributing to impactful projects.

Tech Skills : Javascript, Typescript, Python, Go, NextJs, Tailwind CSS, Laravel, ExpressJs, Git, Docker
